Submitter Comments:

I, alongside many urbanists, design companies, academics and lovers of Brisbane (my birthplace and hometown) worked for years to bring numerous visions of what Victoria Park/Barrambin could become post golf course -for the benefit of ALL who live in and visit Brisbane and it's inner city precincts. To reduce this remarkable tract of land with its ancient and modern histories to a place of stadium based entertainment, against the expressed outcomes of deep and wide community consultation processes over a period of years is outrageous and appalling. There are truly sensible other options for the Olympics. This 'stadiums' proposal is utter vandalism, corruption and built form bastardry- writ so large on the landscape it will always be remembered as such. People in cities in the face of climate change need accessible nature, green lungs and parklands, places of peace and play. Rethink this anti democratic corrupt proposal and leave Barrambin in its entirety out of the clutches of political 'mates'.
